I don't know when they are going out. Last I heard enforcement had said they were going out yesterday. Mike/Kelcey?

Subject: Re: American Tunnel

Carol, Since you will be out for some time, can you confirm our preferred timing on delivering the 104(e) to these mining companies. Martin has discussed holding off on those until we have finalized the communication strategy and had time to brief State, County/Town, and the some key non-government stakeholders. I have not been updated with regard to Enforcement's schedule.

Sincerely,

Sabrina Forrest

Carol - - very good conversation with Helen at BLM.

She was very complimentary of the work Sabrina is doing on outreach. And acknowledged that you quickly cleared up the confusion among her staffers on 104(e) letters to PRPs.

But said her field manager is very worried that the public will not understand what a 104 letter is and will jump to the conclusion that we're headed toward an NPL listing decision. I am no expert on this issue or the community, but her concerns -- coming from her person in Silverton -- gives me pause. Do you have a communications strategy for telling locals what's coming and why so no surprises?

Helen also wants to bring her staff over for a get-to-know-you session and to learn more about the CERCLA process. Probably a good idea. Shirley will work on the scheduling.

Thanks

Jim
